Low Voltage Ceiling Box

Mounting for:

P023R series LEDs

WiFi Access Points

Smoke Detectors

Cameras

Screwless mounting hanger for ceilings

Product Description - Ceiling Mount LV box

This device solves 3 requirements for Code Compliant installation of Low Voltage devices in ceilings

- a) All wires inside Junction boxes
- b) Mechanical support by the rafters not the sheetrock
- c) 2 hour fire rating

It also solves problems in other ways

- a) alignment of the position before sheetrock
- b) hole cutting, tape, float, paint before installing the lights
- c) super fast trim installation
- d) positions low voltage wire above sheetrock to avoid damage

Mounting Options

Use the AL-CBOX4 in 3 ways

- a) nail to the beam – nailer supports included
- b) attach to a Carlon B 620K hanger for vertical joists or T-bar hanging ceiling
- c) bend the Carlon B620K tabs backwards for flat joists

Typical Ceiling LED types

Type	Housing	Color Temperature	Current	Watts
WW	PR023R6	3000 K	360 mA	6
DW	PR023R6	3500 K	360 mA	6
TW	PR023R6	2700-4000 K	260 mA	7
WW	PR023S6	3000 K	300 mA	6
VW	PR023S6	1800-3000 K	300 mA	6
