Product Description - Ceiling Mount Box

This device solves 3 requirements for Code Compliant installation of Low Voltage devices in ceilings

- a) All wires inside Junction boxes
- b) Mechanical support by the rafters not the sheetrock
- c) 2 hour fire rating

It also solves problems in other ways

- a) Allows alignment of the position before sheetrock
- b) Allows hole cutting, tape, float, paint to be done by the sheetrock team before installing the lights
- c) Allows super fast trim installation
- d) Positions low voltage wire above sheetrock to avoid damage

Mounting Options

Use the AL-CBOX4 in 3 ways

- a) nail to the beam – use #10 8d 2 ¼ inch nails
- b) attach to a Carlon B620K* hanger for vertical joists or T-bar hanging ceiling
- c) bend the Carlon B620K* tabs backwards for flat joists

Typical Ceiling LED types

Model	Opening	Trim	Type	Watts
P023R6	4 inch	4 3/4	flat	6
DL-120	4 inch	4 3/4	Recessed spot	6
